

Sefton Stories

The focus of Sefton's year will be on stories, looking at two key elements, local history and the environment.

Through the Sefton Stories Project, we are already planning to celebrate narrative around the Bootle Blitz, Red Rum and the Grand National, the borough's amazing coastline, Southport's tourism and Maghull amateur astronomer Isaac Roberts.

But as the borough is blessed with so many other different and unique stories and individuals behind them, we want the public to decide on who else to celebrate in 2020.

After much deliberation, a list of 10 stories has been chosen to vote on with at least 4 more being added to the final list. A blank box has also been added enabling people to champion stories or individuals they think we have missed and one of these will be included as well.

An online poll has now been set up on www.mysefton.co.uk for people to cast their votes and we are encouraging groups and individuals to champion different stories telling us why they should be celebrated.

The poll will run until January 13, 2020 with the full list for the Sefton Stories Project announced shortly afterwards.

Dwayne Johnson, Chief Executive at Sefton Council, said: "There are so many stories synonymous with Sefton and everyone has their own favorite so we want people to tell us which ones to celebrate.

"The Sefton Stories project is not necessarily about celebrity, it is more about recognizing stories and individuals that have helped shaped the borough's history over time. Some of these are not that well known but once you delve deeper into them they make a great talking point.

"We also recognize that some of them have elements of controversy behind them but we believe they have all played an important part in our past.

"After much debate, we have come up with 10 stories and through the MySefton website people can find out a bit more about them and their links to Sefton. We then want people to champion a story, tell their friends about it and more importantly vote for someone.

"We have left a box blank for other suggestions and pending a real swell of support for someone, we will add them to the list as well.

"Once we have the final list, these will be weaved into our busy Borough of Culture calendar to celebrate them accordingly and should also form part of a special history trail looking at their own unique story.

"This is a fantastic opportunity for people of all ages to learn more about Sefton's history and help define our important Borough of Culture year."

We will be releasing details soon regarding our bidding process for funding. Watch this space...
